Villa Park snow and ice control

Residents requested to move cars off streets tonight

VILLA PARK, IL—The Village of Villa Park Public Works Department is responsible for snow and ice control on all public streets within the Village's corporate limits, except for North Avenue, Roosevelt Road, and Illinois State Route 83, which are maintained by the Illinois Department of Transportation (IDOT).

In the case of a major winter storm event, when snowfall is predicted to exceed eight inches, it may only be possible to keep a center lane open on secondary streets for emergency vehicles until the snowfall stops. On-street parking is the major factor preventing effective snow removal.

Therefore, the Village is enlisting the residents' cooperation in planning ahead to remove their cars from the street today. This is important, as streets can be opened for resident and emergency vehicle use as quickly as possible. We also ask residents do not blow snow into the street, and to place garbage cans a minimum of four feet behind the back of the curb to eliminate or prevent garbage spills.
