**RE: 2017 Street Improvement Project  
Patching Notice**

Dear Resident:

Construction of the **2017 Street Improvement Project** has now reached the point that the contractor is ready to begin the pavement patching removal and replacement. This work is tentatively scheduled to begin on \_\_\_\_\_. During this time, crews will be excavating out the existing pavement patches and base and installing a new stone base and concrete pavement. This work will be followed by the restoration of the driveways, parkways, and finally the installation of the new hot-mix asphalt surface course.

In order to allow this work to take place, residents will not have access to their driveways for a period of approximately two weeks, weather and other circumstances permitting. During this time, residents will be allowed to park during the day and overnight on side streets, where permitted. The Villa Park Police Department will be notified of the need for this parking situation, and should accommodate residents accordingly. **We ask that you please make arrangements to have all necessary vehicles out of your driveway by 6:00 AM on \_\_\_\_\_.**

As always, all questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department at (630) 834-8505. We also ask that any residents with special needs contact us so that we can accommodate them as best as possible. We thank you for your continued patience, especially during this period of the project. If you have any questions or would like additional information, please do not hesitate to contact us.
