**RE: 2019 Jackson Pond Improvement Project
Construction Start**

Dear Resident:

This letter is to remind you that the Village of Villa Park will be completing stormwater improvements over the next few months as a part of its **Jackson Pond Improvement Project** in your area. This project is part of the Village's larger **Sugar Creek Watershed Drainage Improvement Project**, which includes a number of projects intended to lessen the frequency and severity of flooding in the southwest area of the Village.

Construction activity for the project is now underway. Please be aware of the increased traffic and any temporary road closures in your area associated with the construction project. We are sorry for any inconveniences this may cause. Please see the attached letter for more information. More detailed information can also be found on the Sugar Creek project webpage located at: <http://www.invillapark.com/843/Sugar-Creek-Watershed-Drainage-Improvement>

Any further questions and comments regarding this project should be directed to the Village of Villa Park Engineering Division at (630) 834-8505.
